Gift Guide APAC 2006

AiZen Solutions, Inc. RoadRunner - *Bluetooth* Headset

Product Description

Fitting comfortably around your neck, this ideal hands-free *Bluetooth* communicator is for people who frequently wear helmets – or simply don't like headsets. Zen noise cancellation technology allows clear communication in all environments and conditions. Supports Voice Dial functionality with over 99% success rate (Voice Dial is a handset-dependant feature). Stylish design distinguishes RoadRunner from the crowd. Cellphone/computer/audio compatible.

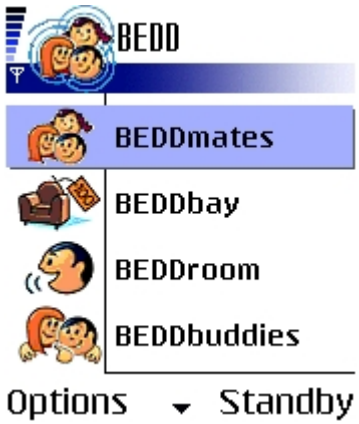
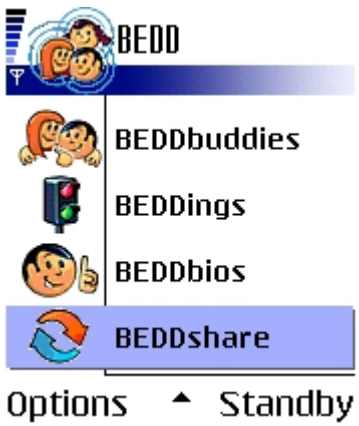
BEDD Inc. BEDD Bringing People Together

BEDD main menu (top screen shot)



BEDD main menu (lower screen shot)



BEDD Bringing People Together

BEDD (www.bedd.com) is new mobile software that searches for people to connect to for any reason.

BEDD exchanges profiles with people that are in proximity via *Bluetooth* technology and in any location via GPRS. Ads are also exchanged for items that people might like to buy or sell. If people's criteria are met, then they're alerted to a prospective match.

BEDD is like on-line networking, chat, and classifieds, but is installed inside the phone. BEDD does all the work for people as they go throughout their lives, providing the opportunity to meet someone cool or buy and sell anything.

Sony Ericsson *Bluetooth*® Watch MBW-100

Sony Ericsson *Bluetooth*® Watch MBW-100

Give yourself full control over calls and phone-based music – through your watch. Linked wirelessly to your Sony Ericsson *Bluetooth*™ mobile phone, this classically designed analog watch allows you to see who is calling through a small yet clear OLED display. You can then reject or mute the call with a discrete key press or take the call through your phone or hands-free solution, such as a *Bluetooth* headset. The MBW-100 also allows you to control your phone's music player: play, pause or skip to the next track. A vibrating alert will tell you when you are out of range, so there is no risk of forgetting your phone.

- Compatible with a majority of the new Sony Ericsson phones that support *Bluetooth* technology
- *Bluetooth*® 2.0
- Auto pairing™
- Time indicator: analog and digital from phone
- SMS/MMS message alert
- Battery indicator
- Water resistant up to 30 m
- *Bluetooth*® functionality: up to 70 days
- Analog time keeping: up to seven additional days
- Battery time: up to seven days normal usage and seven days time keeping only without phone interaction
- Weight: approx. 185 g

Availability: Globally
